

Housing

Our housing department, in our efforts to build a better neighborhood, represents an asset well at the service of the Soulsville community. One of its many endeavors is to provide Soulsville residents with housing assistance from the federal government Free of Charge. Remember, our mission is to bring help to those who really need it and our helping hands extend beyond the community we service. So call us today at 435-1654 to get some information about the different programs we offer.
